Jason Nelson: Working to Make Health Care More Affordable

Make Health Insurance More Affordable

Right now, when people can't pay their medical bills, the taxpayers often pick up the tab. It would make much more sense if government encouraged people to have their own insurance because individuals who have their own are not tied down to a job just to keep their insurance. Jason Nelson will work to make health insurance more affordable by providing the same tax break to individuals that businesses receive. In addition, Jason Nelson will promote programs that continue to encourage businesses to offer health plans to their employees.

Lawsuit Reform to Cut Health Care Costs

Meaningful lawsuit reforms will reduce frivolous lawsuits that lead to higher medical costs. Often doctors perform expensive procedures and tests that are unnecessary simply out of fear of potential lawsuits. Jason Nelson will fight against those who have kept our state from moving forward on this issue for far too long.

Making Prescriptions More Affordable

Jason Nelson believes that no one should ever have to choose between food and medicine. Oklahoma should use its statewide buying power to help lower the cost of prescription drugs in the state, including looking at Governor Henry's plan for the state to purchase re-imported prescriptions. In addition, Jason supports getting rid of archaic regulations that mandate pharmacies make a minimum profit on each prescription.

Eliminate Unnecessary, Expensive Mandates

Too many times, well-intentioned people have burdened our health care system with regulations and mandates that have caused the cost of health care and health insurance to skyrocket. Jason Nelson will push state government to reexamine these burdens that have accumulated over time and eliminate those we no longer need. Jason's plan will also allow insurance companies to offer you, the consumer, more options instead of the one-size-fits-all mentality that we are forced to accept now.

My goal is health care freedom – affordable, private insurance you control.
