

# Jason Nelson knows what is important...

## **OKLAHOMA VALUES**

Jason Nelson is committed to defending the institution of marriage. Jason is pro-life and will continue to work to promote adoption instead of abortion. He supports allowing the faith community to partner with the state when it makes sense – such as with after-school programs and with criminal rehabilitation.

## **STRONG ECONOMY**

Jason will be a champion for job creation. Jason knows a vibrant and growing economy supports strong families, good health care and great schools. Jason will work to reduce bureaucratic red tape, promote private enterprise and work for legal reforms that encourage, rather than discourage, job growth. He will fight for tax relief for property owners including elimination of the automatic 5% property tax increase.

### **Meet Jason Nelson:**

- ★ Jason and his wife, Lori, celebrated their 10th anniversary in August. They have two children – Benjamin, 5 and Grace, 2.
- ★ Jason teaches Sunday School at Metropolitan Baptist Church.
- ★ Jason served in a variety of roles in the Governor's office for 8 years, including legislative liaison to the Oklahoma House of Representatives. Jason also worked on a wide range of issues including economic development, law enforcement, the environment and transportation.
- ★ Jason and Lori have their own public relations firm. Jason also has a wood furniture building, repair and restoration business – a skill and passion he inherited from his grandfather.

## **ENERGY INDEPENDENCE**

Jason supports a strong domestic energy policy that will ease the burden of high gasoline prices. Jason knows we need to expand oil and natural gas production, while also investing in new technologies and expanding our use of alternative energy, like solar, bio-fuels and wind power. We simply must have both affordable and reliable energy supplies so we are not dependent on foreign countries, or even other states, for our fuel supply here in Oklahoma.

## **SAFE NEIGHBORHOODS**

Safe neighborhoods are vital to a good quality of life. Our law enforcement agencies must have the resources to fight crime in our neighborhoods. Jason Nelson supports strong laws on illegal drugs and tough punishment for violent and repeat criminals. Jason supports the death penalty for repeat child molesters.

## **AFFORDABLE HEALTHCARE**

Jason supports a tax deduction for individuals who purchase their own health insurance. Jason also supports meaningful lawsuit reforms that will reduce frivolous lawsuits that lead to higher medical costs. Jason will work to lower the cost of prescription medications and make certain we have access to the medicines we need.

## **QUALITY EDUCATION**

A quality education is the key to a secure future. Jason supports paying teachers as the professionals they are, giving parents more options in the education of their children, and setting higher standards of excellence. Jason will also work to see that our tax dollars get to the classroom where they help students, instead of getting diverted in the education bureaucracy.

## **BETTER ROADS & BRIDGES**

Jason will work to create a dedicated funding source for our state's roads and bridges and to stop the diversion of motor vehicle fees to the state's general fund where they are subject to the whims of the legislature. Jason also supports reinvigorating our state's weigh stations so that heavy trucks that tear up our roads pay their fair share.

**JASON NELSON:**  
*Advisor, Advocate,  
Neighbor, Volunteer,  
Conservative, Leader,  
Family Man*
